

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

September 1st-15th, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1-15, 2004.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003
To: All CEQA Lead Agencies
From: Terry Roberts, Director, State Clearinghouse
Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS
WITH THE STATE CLEARINGHOUSE
Calendar Years 1999 through 2003**

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	Total Documents	Total Projects
1999	602	481	2007	1808	2699	41	22	177	7,837	6,715

2003	757	577	2972	3243	6078	57	8	360	14,052	11,995

KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

NOTE:

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, September 01, 2004</u>			
2004091004	Special Waste Facility Eastern Region Kern County Waste Management Department Mojave--Kern Adoption of Conditional Use Permit (CUP) to allow KCWMD to convert a vacant existing storage facility to operate as a Special Waste Facility Eastern Region (SWFER), termed a small volume transfer station at an industrial complex on Mojave Airport.	CON	10/01/2004
2002101060	San Dieguito Groundwater Recharge and Recovery Olivenhain Municipal Water District --San Diego The proposed project is being considered by the Olivenhain Municipal Water District in order to maximize utilization of surface and groundwater storage capacity, improve water quality, and increase the dry-year groundwater supply within the basin. In an effort to reduce the level of dependency on imported water, to control costs, to ensure safety and reliability, and to promote responsible use and reuse of this county's water resource, OMWD has determined that the use of potable water for irrigation purposes represents an inefficient use of the available water resource. Thus, OMWD operates and maintains the 4S Ranch Wastewater Treatment Plant (4S Ranch WWTP) for the purpose of providing reclaimed water as a replacement for potable water currently being used for irrigation by OMWD customers. However, one of the requirements stipulated by the Regional Water Quality Control Board in the Master Reclamation Permit calls for OMWD to dispose of up to 1.2 MGD (soon to be increased to 2.0 MGD) during the wet season. Thus, in compliance with this permit requirement, OMWD has undertaken a search for appropriate locations to either store or dispose of excess reclaimed water during the wet season. Two destinations have been identified. The first delivery destination is Fairbanks Ranch County Club and the second delivery location is Morgan Run Resort and Golf Club.	EIR	10/15/2004
2003121098	Tower of Wooden Pallets Apartments Los Angeles, City of Los Angeles, City of--Los Angeles Site Plan Review for a 98-unit (original 78 units + 25% density bonus with five units designated as "affordable disabled"), three-story apartment building with 185 subterranean parking stalls in the R3-1 Zone, on a 1.43- acre site. The site contains Los Angeles Historic-Cultural Monument No. 184, "Tower of Wooden Pallets", a single-family structure, and sheds, all proposed to be demolished (but the monument will not be declassified).	EIR	10/15/2004
2003121150	North Lake Area and South Lake Area Projects San Bernardino Valley Municipal Water District San Bernardino--San Bernardino Development / redevelopment project involving two, discontinuous areas totaling 136 acres, which would include a lake, wetland / water feature, residential, retail commercial, and office commercial uses. Both project areas include acquisition of property and relocation of existing businesses, institutions, and residences.	EIR	10/15/2004

<u>Documents Received on Wednesday, September 01, 2004</u>			
2004011070	<p>Four Seasons Biltmore Hotel and Coral Casino Historic Renovation Plan Development Revision Santa Barbara County --Santa Barbara</p> <p>The project involves a request to rehabilitate the Coral Casino facility, including conversion of 2,900 sf of space, addition of 2,054 sf, removal of the La Perla Restaurant, La Perla Circle and second story temporary fitness center, and relocation of the dining facilities to a proposed second story restaurant with a third story sundeck. Other site improvements include pool deck and landscape upgrades, a series of interior renovations, accessibility improvements and addition of an accessible ramp to the Biltmore Beach, and a new vehicle queue area for valet operations on Channel Drive. The operational changes include the requested allowance for guests of registered Biltmore Hotel guests to use the proposed second story restaurant, and accommodation of reciprocal membership uses. The applicant is also proposing a modification of zoning ordinance requirements to allow encroachment of a portion of the proposed first floor addition into the easterly side yard setback.</p>	EIR	10/15/2004
2004021004	<p>Hi-Grade Materials Mining Expansion Palmdale, City of Palmdale--Los Angeles</p> <p>A proposal to expand the existing mining operations and consolidate the existing entitlements under one conditional use permit and state mandated reclamation plan on 371 acres. The proposal will add 99 acres of new mining area to CA Mine 91-19-0026 and provide new reclamation plan for CA Mine 91-19-0026 and CA Mine 91-0031.</p>	EIR	10/18/2004
2004021038	<p>Chandler Ranch Area Specific Plan El Paso de Robles, City of Paso Robles--San Luis Obispo</p> <p>The proposed project, known as the Chandler Ranch Area Specific Plan, involves the modification of the current General Plan land use designations. The existing General Plan includes the following underlying land use designations within the planning area:</p> <ul style="list-style-type: none"> -BP, Business Park (81.0 acres) -CS, Commercial Service (34.1 acres) -NC, Neighborhood Commercial (19.2 acres) -RS, Residential Suburban [0.4 Dwelling Units/acre] (575.3 acres) -RSF-2, Residential Single-Family [2 Dwelling Units/acre] (89.6 acres) -RSF-4, Residential Single-Family [4 Dwelling Units/acre] (38.0 acres) 	EIR	10/29/2004
2004052082	<p>District and Community Center Building and Parking Lot 1H Foothill-De Anza Community College District Los Altos Hills--Santa Clara</p> <p>Construction of the 17,050 to 22,550 square foot District and Community Center Building and a new parking lot. The building will provide office space, conference and meeting rooms and a new board room. The parking lot will provide 350 parking spaces. Both facilities are included in the "Revised Facilities Master Plan" for the college campus and were analyzed in the "Foothill College Projects EIR" (2002) prepared on the "Revised Facilities Master Plan." The site for the District and Community Center Building has changed from that analyzed in the "Foothill College Projects EIR." This DEIR analyzes the potential impacts associated with the new location of this facility.</p>	EIR	10/15/2004

	Planning District (C-3-SPD) zone; and d) Variance to waive tree shading requirements for the parking lot on 1.03 +/- developed acres in the proposed Downtown Commercial Mixed Use Special Planning District (C-3-SPD) zone.		
2004022084	Lake Aloha Dam Maintenance and Telemetry Station Installation El Dorado Irrigation District --El Dorado El Dorado Irrigation District (District) proposes to carry out maintenance activities on the Lake Aloha dam (a.k.a. Medley Lakes) and the installation of a telemetry station at the dam. The proposed action consists of two improvements at Lake Aloha that would be implemented concurrently. The first involves maintenance and repairs of the Main Dam and Auxilliary Dams 4, 6, and 7. This work is required by the Department of Water Resources, Division of Safety of Dams (DSOD) in order to "keep the dam[s] in satisfactory condition." The second improvement would involve installation of a solar powered telemetry station on the Main Dam to help monitor lake levels and reservoir releases to comply with Federal Energy Regulatory Commission (FERC) license conditions, to help optimize operations, and to assist with protecting the resident Mountain yellow-legged frog (MYLF) (Rana muscosa) populations from trout predation.	NOD	
2004031083	Fort Irwin - New Elementary School Project Silver Valley Unified School District --San Bernardino The Silver Elementary School District proposes to construct a New Elementary School and Warehouse/Maintenance Annex on land located within the boundaries of the Fort Irwin Military Reservation in Yermo, CA to house students residing within the base. 1991123083	Highway 25 Hollister Bypass Project San Benito County Hollister--San Benito The Highway 25 Hollister Bypass Project is proposed to relieve congestion in downtown Hollister and improve traffic circulation in and around the city by providing a new through traffic facility to serve increasing travel demand. The McCloskey Drainage System Outfall to Santa Ana Creek would be a City of Hollister system, although it would be constructed as part of the Highway 25 Hollister Bypass project. The main system would be outside the proposed Bypass right-of-way and would be designed to meet the City drainage master plan requirements to serve future development in the area south of McCloskey Road.	EIR	10/18/2004
2004021037	Chino Hills State Park Entrance Road Parks and Recreation, Department of Chino Hills--San Bernardino This project would build a new improved two-lane road on the general alignment of the existing unimproved dirt entrance road (Bane Canyon Road) for a distance of approximately 2 miles. Construction would relocate the road onto a more favorable alignment, as feasible, and utilize retaining walls to reduce cut and fill slopes. The proposed project would also construct a multi-use trail, include underground utilities, a trailhead, road drainage facilities, a park entrance station with utilities, a scenic overlook, maintenance storage area, a comfort station, erosion control measures, and minor intersection improvements.	EIR	10/18/2004
2004041035	Flying Flags Residential Buellton, City of Buellton--Santa Barbara The site is currently developed and is comprised of a Recreational Vehicle (RV) Park (the Flying Flags RV Park) located at 180 Avenue of Flags, south of Highway 246 and west of Highway 101. The proposed project would include a development plan for 200 residential units, consisting of a mix of single-family, cluster and apartment residential development. The project would include 61 single-family lots in the south/central portion of the site, 109 cluster single-family units in the north/central	EIR	10/18/2004

	portion of the site. 30 multi-family units in nine two-story apartment structures in the northern portion of the site, and a park/open space area within a bicycle path in the southern portion of site (extending along the western boundary of the site). The proposed project would displace the existing, on-site 375-space RV Park. The current zoning and General Plan land use designation for the project site is General Commercial (CR). The proposed project would include a General Plan amendment and zone change from CR to Planned Residential Development (PRD).		
2004091012	Cornishe of Bighorn Palm Desert, City of Palm Desert--Riverside The project application proposes a subdivision of the vacant 11.87 acres into 11 lots to include 38 residential townhouse units, 2 private street lots, 1 access easement, and 3 open space lots. The townhouses are within five lots. The subdivision application is Tentative Tract Map 31676.	NOP	10/01/2004
2004092009	Bay Point Waterfront Strategic Plan Contra Costa County Community Development --Contra Costa In the Final Concept Plan a marina with 568 berths is suggested. Most of the berths (80%) would be covered. A large parking lot area for trailers as well as dry storage area is proposed on the east end of the site where it is in close proximity to a new boat launch location. Other proposed support uses consist of a fuel dock, centrally located harbor master building, restroom laundry, and showers, chandlery store with bait and tackle, administrative offices, cafe/snack bar and yacht club. The proposal also incorporates approximately 20 acres of multi-family medium density housing. The plan also includes the northern extension of Alves Lane from Willow Pass Road and eastern extension of Pacifica Avenue from Port Chicago Highway to the waterfront area, via a second crossing of the railroad lines.	NOP	10/01/2004
2004092011	East Cypress Corridor Specific Plan Oakley, City of Oakley--Contra Costa The East Cypress Corridor Specific Plan contemplates development of up to 3,585 new residential units, 1,036,728 sf of commercial use, 232 acres of public and semi-public use, five acres of Delta recreation, and 19 acres of parkland based on the uses allowed by the Oakley General Plan. The project would also extend existing trail systems to connect with the site and construct new utilities. The East Cypress Corridor Specific Plan is also proposed for annexation into the City of Oakley.	NOP	10/01/2004
2004092012	Quito Road Residential Saratoga, City of Saratoga--Santa Clara The proposed project is the construction of 60 condominium units in the City of Saratoga. The stated goal of the developer is to provide housing for purchase by Saratoga teachers and City of Saratoga municipal workers.	NOP	10/01/2004
2004092016	Union Ranch Specific Plan EIR Manteca, City of Manteca--San Joaquin The proposed project Union Ranch Specific Plan (Plan) will guide development of approximately 550 acres of land with low density residential, commercial/mixed use, and open space/trails. Guidelines for land use development, infrastructure, planning, zoning, and architectural design are included in the Plan. The Plan area	NOP	10/04/2004

1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus This is a subdivision project as defined by Section II.C of the MEIR. The application is to divide a 12.3-acre property into 70 single-family residential lots.	NOD	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Amendment to Condition No. 11 of City Council Resolution No. 96-689 to extend the business hours of Starbucks and the free-standing restaurants in front of the Shopping Center along Oakdale Road.	NOD	
2001082058	Oakland Army Base Area Redevelopment EIR Oakland, City of Oakland--Alameda The RAP Amendment serves to include the Subaru Lot in the area to which the original RAP applies. The RAP Amendment also identifies, evaluates, and proposes remedy for the Subaru Lot. The proposed remedy is institutional controls which include prohibition on the construction of groundwater wells and the extraction of groundwater, and compliance of the Implementation and Enforcement Plan. Implementation of the approved remedy would involve recordation of a "Covenant to Restrict Use of Property" with the Alameda County Assessor's Office to promulgate the institutional controls.	NOD	
2004041072	Carlson Marsh Regrade Project Irvine Ranch Water District Irvine--Orange CDFG is executing a Lake or Streambed Alteration Agreement (Agreement) pursuant to Section 1602 (SAA # 1600-2004-0177-R5) of the Fish and Game Code to the project applicant, Mr. Gregory K. Herr, Irvine Ranch Water District. The applicant proposes to alter the streambed and banks through the implementation of the Carlson Marsh Regrade Project. The project proposes the construction or modification of berms, weirs, and culverts, construction of low flow channels, removal of invasive vegetation, and restoration of riparian habitat within Carlson Marsh (Marsh). The modification and construction of these weirs, culverts and low flow channels will allow for circulation of water through the Marsh in the dry season, to drain ponded water after a storm event, and to control water supply within the marsh. Treated (polished) creek water from the seasonal ponds will be introduced at the northern portion of the Marsh and conveyed through low flow channels to the southern portion of the Marsh and then re-circulated to the northernmost seasonal pond. The circulation of water in the marsh during the summer will achieve the project objectives of promoting vector control, restoring historic hydrologic conditions, and providing permanent open water habitat for resident and migratory wildlife. The modification and construction of the berms will also provide additional freeboard for protection of adjacent facilities during the 100-year storm event and provide for operation and maintenance activity. Carlson Marsh encompasses approximately 60 acres of the northwestern portion of the 580-acre San Joaquin Marsh and extends from Michelson Drive south to McArthur Boulevard.	NOD

2004091021	Highland High School Parking Lot Antelope Valley Union High School District Palmdale--Los Angeles The Antelope Valley Joint Union High School District proposes to construct a new parking lot within the existing Highland High School campus to provide needed parking on campus and significantly reduce the overflow of student parking on the surrounding streets.	Neg	10/04/2004
2004091022	Conditional Use Permit No. 7-04 CUP Irwindale, City of Irwindale--Los Angeles The proposed project consists of establishing and operating a roll-off bin service facility in a one-acre vacant site (the "Site"). The facility will be used for the storage of no more than 40 roll-off bins and the parking of an average of nine trucks at any time. The bins are designed to haul discarded inert material, consisting of construction debris, from a construction site to a final disposal site, which may include the Nu-way Inert Land Fill or the Puente Hills, the Scholl Canyon, or the Los Angeles County sanitary land fills. The roll-off bins to be stored in the Site shall not be used for the transportation of green waste and perishables, produce and other household wastes. Most of the roll-off bins to be stored in the facility will be empty except those bins that are loaded during the weekend and/or holidays when the disposal sites are closed.	Neg	10/04/2004
2004091023	North County San Diego Recycling RMDZ San Diego, City of --San Diego Resolution to continue a State loan program designation that provides economic incentives to businesses using secondary materials from the waste stream as feedstock for manufacturing, and therefore to divert solid waste from landfills. The project area includes portions of the City of San Diego and unincorporated County of San Diego and the Cities of Carlsbad, Del Mar, Escondido, Oceanside, Poway, San Marcos, Solana Beach, and Vista.	Neg	10/04/2004
2004091024	Pismo Promenade IV Pismo Beach, City of Pismo Beach--San Luis Obispo Promenade consisting of a wooden boardwalk with connections to the Pismo Pier plaza and Main Street, a wooden stairway down to the beach, 8 deck extensions, 13 wooden beaches, shielded lighting within the interior side walls, installation of 2 water main pipelines for the fire suppression, and construction of a new pedestrian drop-off and retaining wall.	Neg	10/04/2004

2004031110	Castaic High School William S. Hart Union High School District --Los Angeles The District is proposing to build a high school in an area of unincorporated Los Angeles County adjacent to the previously approved North Lake Specific Plan area north of Santa Clarita and the town of Castaic. The project site would be approximately 60 acres and would consist of high school facilities some of which would be available for joint use with the community.	EIR	10/21/2004
2004041020	Fourth Street and Main Street Mixed-Use Development Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project entails the construction and operation of approximately 400 residential lofts, 190,000 square feet of retail space, and approximately 1,200 parking spaces.	EIR	10/21/2004
1991123083	Highway 25 Hollister Bypass Project San Benito County Hollister--San Benito The Highway 25 Hollister Bypass Project is proposed to relieve congestion in downtown Hollister and improve traffic circulation in and around the city by providing a new through traffic facility to serve increasing travel demand. The McCloskey Drainage System Outfall to Santa Ana Creek would be a City of Hollister system, although it would be constructed as part of the Highway 25 Hollister Bypass project. The main system would be outside the proposed Bypass right-of-way and would be designed to meet the City drainage master plan requirements to serve future development in the area south of McCloskey Road. 1998021052	West Creek Project 98-008 (CUP Zone Change, Oak Tree Permit, Plan Amendments & Tract 52455) Los Angeles County Santa Clarita--Los Angeles The subdivision of 966 acres proposing the creation of 2,545 dwelling units and 180,000 sf of commercial retail space. In addition, a neighborhood park, elementary park, elementary school, private recreation facilities, and 551 acres of open space are proposed.	FIN	
2001101167	Plaza de Cultura y Arte Los Angeles County Los Angeles, City of--Los Angeles The goal of the proposed project is to create a pedestrian-oriented facility that celebrates, promotes, and preserves an understanding of Mexican American historical contributions to Los Angeles. The proposed project would provide a multipurpose facility, including a courtyard, memorial garden, outdoor classroom, visitor center, community events center, educational performing arts center, performing art center, and associated pedestrian connections.	FIN	
2002091018	Canyon Hills Project Los Angeles City Planning Department Los Angeles, City of--Los Angeles Vesting Tentative Tract Map, Development Agreement, Major Plan Review, and Zone Change to permit the construction of 280 single-family homes to be clustered on approximately 194 acres of the 887-acre project site. Approximately 211 homes will be constructed on approximately 142 acres north of Interstate 210 (Development Area A). The remaining 69 homes will be constructed on approximately 52 acres south of Interstate 210 (Development Area B). Approximately 693 acres (78 percent) of the project site will be preserved as permanent open space.	FIN	
2004091031	Wilshire Comstock Los Angeles City Planning Department --Los Angeles The project applicant proposes to develop the vacant project site with 35 condominium units (and 8 accessory maids rooms) pursuant to the previous TTM approval. The approximate 202,000 square foot high-rise residential building would be 21 stories or approximately 281 feet in height. 52.8 percent or 13,203 square feet of the existing vacant lot would be developed with the proposed high-rise building. The remaining 47.2 percent or 11,814 square feet of the project site would consist of open space. Parking would be provided on-site for approximately 111 vehicles in a three level subterranean parking structure. Total grading would consist of approximately 38,600 cubic-yards of soil. Pursuant to Section 16.50 of the Los Angeles Municipal Code, the project is subject to Design Review Board oversight to ensure that specific design criteria of the Westwood Community Plan is implemented into the design elements of the proposed project (the project is exempt from the Wilshire-Westwood Scenic Corridor Specific Plan as the TTM was approved between July 25, 1972 and June 5, 1980). The record map will not be modified. The applicant is voluntarily agreeing to the preparation of an environmental impact report (EIR) which will provide a detailed analysis of Geology and Soils, Transportation/Traffic and other environmental factors deemed to be potentially affected. 2004091034	California Coastal Trail-Gaviota Segment Parks and Recreation, Department of Goleta--Santa Barbara The California Department of Parks and Recreation (DPR) proposes to construct a 4 km (2.5 mile) segment of the California Coastal Trail, in Gaviota State Park. This multi-use trail segment would extend east from the Gaviota State Park entrance road (Gaviota Beach Road) along the coastal terrace on the south side of US Highway (Hwy) 101, and will terminate at Canada de San Onofre at its eastern end. The trail would serve pedestrians with varied mobility impairments, bicyclists and equestrians. The trail route would include some areas within California Department of Transportation right-of-way for Hwy 101 as well as property currently owned by Shell Oil Company.	NOP	10/06/2004
2004091035	Santa Maria Closed Landfill Cover Repair Santa Barbara County Santa Maria--Santa Barbara Project proposes to repair the cover or "cap" on the Santa Maria Airport Closed Landfill.	NOP	10/06/2004
2004062099	Sonoma County Central Disposal Site Leachate and Landfill Gas Pipeline Sonoma County Department of Transportation and Public Works --Sonoma The Department of Transportation and Public Works, Integrated Waste Division proposes to install two pipelines to facilitate more efficient operations at the Sonoma County Central Disposal Site. One pipeline would transport leachate from the landfill leachate ponds to the Rohnert Park sewer trunk line near Stony Point Road and the Laguna de Santa Rosa. The second pipeline would transport landfill gas from the Central Disposal Site to a PG&E connection point on Juniper Road that services the Sonoma County Transit Facility on West Robles Road. The pipelines will be located within the roadway prism and the general route will include Hammel Road, to Mecham Road, to Stony Point Road to Todd Road.	Neg	10/06/2004
2004091029	Exeter Lanfill Closure Tulare County Resource Management Agency Lindsay--Tulare Closure of the Exeter Landfill. This landfill stopped accepting waste materials in 1989. Per Title 27 CCR, this landfill must undergo closure construction which consists of adding a 2-foot foundation layer, an impervious barrier layer, and an erosion-resistant layer.	Neg	10/06/2004
2004091030	The Recycling Market Development Zone Madera County Madera--Madera The Recycling Market Development Zone (RMDZ) program is a partnership of local government and the California Integrated Waste Management Board, created to provide incentives to business that use materials from the waste stream for their manufacturing. The project is the renewal of Madera County's status as a Recycling Market Development Zone. The RMDZ is a program that makes assistance (including loans) available to all business and local governments in the County. Therefore the scope of the development is countywide.	Neg	10/06/2004

2002091096	University Village and Orchard Park Specific Plans EIR Loma Linda, City of Loma Linda--San Bernardino Specific Plans are being prepared for the University Village and Orchard Park project sites. Approximately 1,769 housing units and approximately 172,000 square feet of commercial and mixed uses would be included in the University Village project. Approximately 1,259 housing units and 962,676 square feet of commercial and mixed uses would be included in the Orchard Park project. Both communities would incorporate a variety of land uses and residential types.	EIR	10/22/2004
2004094001	Proposed Prado Basin Water Supply, Riverside and San Bernardino Counties Draft EIR U.S. Army Corps of Engineers Corona--Riverside, San Bernardino The proposed project will allow storage of water between elevations 494 and 498 feet between the months of October and March. Current water conservations within Prado Basin allows for storage of water at elevation 494 feet during the winter months, and up to elevation 505 feet between March and October. The proposed project will allow storage of water at a higher elevation during the winter season, with the pool being evacuated before any storm flows enter the basin. This will ensure that there is no impact to the flood control capacity of the Prado Dam. The Draft EIS/EIR evaluates alternatives carried forward for detailed environmental analysis. The environmental impacts related to the proposed action and other alternatives are addressed in the Draft EIS/EIR.	EIR	10/22/2004

	yards (2,000 cut/3,000 fill) for Carlsen Road and 3,500 cubic yards (2,500 cut/1,000 fill) for shared driveways. Currently, there are two existing single-family dwelling units located on the property. These two units and their related outbuildings will be included as part of the total lots proposed. Of the 38 units proposed in the project, 36 will be new residences. The site for the subdivision consists of three parcels. A parcel under different ownership separates the middle and eastern parcels. A conservation easement of 63.68 acres is proposed and a 20-foot wide equestrian trail easement will be located across portions of the southern end of the property as well as portions of neighboring property.		
2004092030	Spanish Creek Bridge Replacement Project Caltrans #2 --Plumas The preferred alternative entails removal of the existing bridge and construction of a new bridge on a different alignment.	NOP	10/07/2004
2002071020	Lot Line Adjustment 2001-110 Big Bear Lake, City of Big Bear Lake--San Bernardino The realignment of property lines between two adjacent properties identified as APN's 307-211-08 and 10, from a 3.5-acre parcel and a 6,292 sf parcel to a 2.73-acre parcel and a 33,976 sf parcel.	Neg	10/07/2004
2004091037	Crestline-Lake Arrowhead Water Agency Improvements at the Lake Silverwood Water Treatment Plant Facility Crestline Lake Arrowhead Water Agency --San Bernardino The proposed project consists of improvements to the Lake Silverwood Water Treatment Plant Facility. The proposed improvements are: 1) Installation of a 500-horsepower booster pump; 2) Re-vegetation of sloped areas; 3) Modification of the plant facility's on-site drainage system to better manage and improve water quality of off-site runoff; and 4) Additional paved surface area to enhance on-site operations and maintenance activities, mobility, and logistics.	Neg	10/07/2004
2004091038	Tentative Tract Map No. 16533 San Bernardino, City of San Bernardino--San Bernardino The proposed project will result in the subdivision of 37.2 acres into 52 single-family residential lots with a minimum lot size of 10,800 sf, and two remaining lots measuring 7,496 sf and approximately 20 acres, respectively. The project site is located north of the intersection of Magnolia Avenue and Perrin Avenue (the future Verdemont Drive). Associated site improvements include paved roadways and driveways, sidewalks, landscaped areas, a recreational trail north of the proposed residential units, and an underground water pump station.	Neg	10/07/2004
2004092029	Haven Court Bridges Initial Study / Mitigated Negative Declaration Menlo Park, City of Menlo Park--San Mateo Property owner of 3700 Haven Court is proposing to build two bridges and stabilize bank of the Atherton Channel. The purpose of the project is to prevent damage to the existing building foundation.	Neg	10/07/2004

	Drive is approximately 2,754 feet in length and will cover approximately 15.25 acres, including associated graded abd re-vegetated slopes. The project requires subdivision (TT 5411) approval. Project implementation will affect Army Corps of Engineers and California Department of Fish and Game jurisdictional areas. Permits/approvals are required from these two agencies, as well as the Regional Water Quality Control Board. A Caltrans encroachment permit may be required for temporary encroachment on SR-118 right of way during project construction.		
2004072068	Globe Mill Historic Adaptive Reuse Project Housing and Community Development, Department of Sacramento--Sacramento The proposed project involves the adaptive reuse of the Globe Mills, a Historic Landmark on the Official Register for the City of Sacramento, into a mixed-use residential complex. Certain structures in the mills complex would be rehabilitated, some demolished, and two new buildings constructed on the site for a total of 145 residential units and 9,600 sf of retail and commercial over parking. There would be up to 31 market rate residential units in the rehabilitated Mills Structure, 72 senior housing units in New Building 1, and 42 senior housing units in New Building 2.	EIR	10/25/2004
1995062067	San Sevaine Amended and Restated Redevelopment Plan ("Amended Plan") San Bernardino County Land Use Services Department San Bernardino--San Bernardino The proposed project, located in unincorporated territories in western San Bernardino County, would amend the 2,835 acre San Servaine Redevelopment Plan Project Area to include an additional 1,156 acres ("Added Area").	FIN	
2004062066	Pit River Tribe Entertainment Facility Improvement Hotel Project Pit River Tribe --Shasta The proposed project would construct a new gaming facility to house the Tribe's casino operations and a new 100-room hotel adjacent to the new gaming facility. The Project would be constructed on a previously disturbed envelope south of the existing facility. Phase 1 would entail the construction of a portion of the new gaming facility, comprising approximately 6,500 sf of gaming area, approximately 3,250 sf of bingo area, approximately 1,300 sf of kitchen and food service area, and approximately 8,950 sf of offices for administrative and security purposes. Upon completion of Phase 1, the new gaming facility would have a total area of approximately 20,000 sf and would be one single-level structure. An asphalt parking lot would be constructed in the vicinity of the new gaming facility, partially over the top of the existing parking lot that is adjacent to the existing gaming facility. An improved access driveway off Tamarack Avenue would be constructed. Once the new facility is opened to the public, the existing gaming facility would be demolished and materials would be properly removed and disposed. Phase 2 would entail the construction of a three-level hotel facility that would include approximately 60 guest rooms and a lobby. The hotel would be approximately 18,000 sf in are, and would be connected to the eastern end of the new gaming facility. Phase 3 would entail the expansion of the new gaming facility to include an additional 6,000 sf of gaming area and approximately 4,000 sf of offices for administrative and security purposes. Phase 3 would also include an expansion of the hotel to include approximately 40 additional rooms within approximately 8,400 sf of additional floor area. Design of the Project includes landscaping along the improved access road, within the new parking area, within the portion of the Reservation located between the parking lot and Tamarack Avenue, and in the	FIN	09/22/2004

1994062005	City of Ripon 2004 General Plan Update Ripon, City of Manteca, Modesto--San Joaquin The proposed project is a comprehensive update to the City of Ripon General Plan 2035. The existing document covered a planning horizon of 37 years from 1998 to 2035. The proposed project is an update that adjusts that timeframe by extending the planning horizon to 2040 to address community and policy changes that have occurred since adoption of the previous plan. The update includes changes to the principal elements of the general plan.	NOP	10/12/2004
2003061060	The Paseo San Diego, City of --San Diego Mixed-use development on an approximate 11.0-acre site. Project development would occur on two sites, on which all existing structures would either be demolished or relocated. The primary project site is proposed to contain approximately 153,500 sf of retail uses, 60,000 sf of restaurant uses, a 4,500-sf religious center, 67,000-sf theater (2,900 seats), 110,000 sf of office uses, and 470 units of multi-family residential uses (student housing). A two-level, 750,000-sf subterranean parking garage (with 1,950 spaces) would underlie the primary site. The secondary project site is proposed to include new student religious centers, totaling approximately 35,000 sf, which would be relocated from those centers currently existing within the Core Sub-Area and/or primary project site.	NOP	10/12/2004
2003072061	General Plan and Zoning Ordinance Update Concord, City of Concord--Contra Costa The City of Concord is preparing a General Plan and Zoning Ordinance Update, and has determined that an Environmental Impact Report (EIR) will be necessary. The scope of the General Plan and Zoning Ordinance Update project has been modified to incorporate a new Planning Area Boundary change for three geographic areas located outside the Concord City Limit Line and the City's Sphere of Influence.	NOP	10/12/2004
2004091047	South Gate Educational Center Master Plan EIR Los Angeles Community College District South Gate--Los Angeles The Master Plan will be designated to allow for the addition of new facilities and the renovation of existing facilities to accommodate an increase in enrollment from 5,200 full time equivalent (FTE) students to as high as 16,500 FTE students by year 2016.	NOP	10/12/2004
2004091048	Rio Bravo No. 3 Annexation Bakersfield, City of Bakersfield--Kern The project consists of an annexation, general plan amendment and zone change of approximately 617 acres in northeast Bakersfield.	NOP	10/12/2004

2004098104	Erosion Control Projects at Garvey Reservoir Metropolitan Water District of Southern California Monterey Park--Los Angeles Metropolitan proposes to implement erosion control projects at its Garvey Reservoir. Metropolitan proposes to repair an area of erosion on the southern slope of the Garvey Reservoir property through extension of an existing concrete V-ditch. Metropolitan will also repair an area of poor drainage located along the southwest edge of Metropolitan's property by installing a concrete apron to collect drainage from upslope areas and direct it into an existing storm drain.	NOE	
2004098105	Entering into an Agreement for Construction of Service Connection B-06 Metropolitan Water District of Southern California Los Angeles, City of--Los Angeles Metropolitan proposes to enter into an agreement for construction of Service Connection B-06. Metropolitan proposes to enter into an agreement with the City of Burbank for construction of the new service connection. Metropolitan will construct Service Connection B-06 at Station #1070+55 along the Football Feeder-San Fernando Tunnel, located south of the intersection of Fenton Avenue and Maclay Street.	NOE	
2004098106	Hydroelectric Power Plants Digital Energy Meter Installation Program Metropolitan Water District of Southern California --Los Angeles Metropolitan has authorized funding for design, procurement, installation, testing, and certification of new California Independent Systems Operator (CAISO)-compliant digital energy meters and associated telecommunication equipment for Metropolitan's 15 hydroelectric power plants. Metropolitan staff will prepare the design and equipment specifications, and install the equipment; a supplier will furnish the specified equipment, conduct operational testing, and provide certification for compliance with the CAISO standards.	NOE	
2004098107	Emergency Storage Program Policy Parameters Metropolitan Water District of Southern California --Los Angeles Metropolitan administers several programs that provide financial assistance through incentive payments or discounted water rates to the member agencies for the development of local resources, conservation and replenishment of groundwater basins and surface water reservoirs. The program's primary purpose is to assist member agencies when they purchase Metropolitan supplies for the purpose of initially filling the emergency storage capacity in a newly constructed reservoir or tank. To achieve this, water purchased through the Emergency Storage Program would be sold at the Teir 1 cost. The Tier 2 Supply Rate would not apply, since this water is for emergency storage and is not intended for routine consumptive use. Metropolitan has approved policy parameters for the Emergency Storage Program.	NOE

2004092055	<p>Mather Boulevard Bike Trail Improvements Sacramento County Sacramento--Sacramento</p> <p>The proposed project proposes to upgrade the existing bike path to a Class 1 bike path in seven (7) phases. The California Transportation Highway Design Manual describes Class 1 as a pathway that is for "the exclusive use of bicycles and pedestrians." These guidelines suggest the following design criteria: a pathway, separated from vehicular traffic, of 8 feet or greater, for two-way travel, with an extension of 2-foot shoulders, minimum on either side. The existing bike trail lacks protective shoulders and varies in widths from 4-feet to 9-feet. Proposed amendments area to repair the existing bike trail with an Asphalt Concrete (AC) overlay, increase the trail to 10-feet and create a 2-foot decomposed granite shoulder at each side, at most locations. Those constrained portions of the bike trail not capable of widening will only consist of the overlay. Landscaping adjacent to the trail would be installed to provide summer shade. The plantings will consist of native plants such as Valley oaks, and western redbud and will also incorporate ornamentals when appropriate.</p>	Neg	10/12/2004

2004092058	<p>Update to the City of San Leandro Bicycle and Pedestrian Master Plan San Leandro, City of San Leandro--Alameda</p> <p>This is an update and revision of the City of San Leandro's previously-adopted Bicycle Facilities Master Plan which was approved in 1997. The city is now including a pedestrian component to this particular update effort. The Bicycle and Pedestrian Master Plan is included by reference in the City of San Leandro General Plan and contains a number of recommendations for Class I, Class II and Class III bicycle facilities. Recommendations for additional pedestrian facilities are also included in this update which will help the City of San Leandro to more strongly compete for a variety of state and federal capital improvement grants. Overall, the Master Plan proposes to enhance bicycle and pedestrian connections within San Leandro which will lessen the reliance on gas-powered vehicles, which then will help San Leandro attain air quality, recreation and transportation-related goals contained in the General Plan. There are no environmental impacts anticipated with the adoption of the Master Plan.</p>	Neg	10/12/2004

Follow-up treatments will include root removal, tarping, and/or the application of glyphosate in order to kill the giant reed. Removal areas will be revegetated with native plant species.</p>	Neg	10/12/2004
2004092060	<p>Sacramento International Airport Domestic Water Connection Sacramento County Dept. of Environmental Review --Sacramento</p> <p>The proposed project will construct the following facilities: 1) A pipeline and related facilities connecting the Sacramento International Airport domestic water system to the existing City of Sacramento (the "City") water supply distribution system. 2) A turnout and pipeline extension to provide water to the Metro Air Park. 3) Two 1.4 million-gallon water tanks and booster pumping station.</p> <p>These new facilities will be used to receive potable water from the City's water supply system under the Agreement for Wholesale and/or Wheeling Water Service ("the Agreement"). The proposed project consists of approving the Agreement and the new facilities that will be constructed to supply water under the Agreement.</p> <p>The Sacramento County Airport System (SCAS) will construct the new water main that will connect to the City's existing water distribution system on El Centro Road. The pipe will be installed within El Centro Road in the City limits and extend outside the City limits along Bayou Road, cross below Power Line Road and connect to the two 1.4 million-gallon water tanks. From the water tank site the pipe will be installed beneath Interstate 5 east of the Airport Boulevard off-ramp, extend adjacent to the east side of Airport Boulevard and connect to the existing water stub south of Airport Boulevard. The portion of pipe within the County will be 24 inches in diameter up to the Metro Air Park stub. The portion of pipe from Metro Air Park to the City connection will be 30 inches in diameter. The Metro Air Park connection will be separately constructed under Interstate 5 and within Metro Air Park, as part of the Metro Air Park development. Note: Bayou Road is on the south side of Interstate 5; there is also a North Bayou Road located north of Interstate 5.</p>	Neg	10/12/2004

2004098179	ADA Path from Lower Parking Lot to Washington Street Parks and Recreation, Department of --Tuolumne Construct a route of travel at Columbia State Historic Park between the lower parking lot restroom and Washington Street that meets Americans with Disabilities Act standards. The 350' route of travel will include the excavation in non-cut slope areas of approximately 3"-4" deep with a path width of 48". The cut slope bank area will require the construction of a 3/4-bench path bed with a width of 36" and depth of up to 18". The surface material will be 3.5"-4" of compacted Class II aggregate base with a slight center crown and will be colored and textured to match surrounding dirt. Access connections to the existing comfort station will occur at the north ends of each of the walkways from the east and west sides. The easterly comfort station connection will require the construction of 2-3 steps. Construction of the steps will be with 4" x 6" timbers for the risers and compacted aggregate for the treads. The existing 8'-10' gravel/vegetated path, which leads from the Fallon Hotel to parking area, will receive additional gravel and be compacted to provide a direct path for visitors not requiring a gentle grade route. No ground disturbance will take place within the dripline of mature trees or elderberry. All ground disturbance will be monitored by a DPR-qualified archaeologist.	NOE	
2004098180	Vulcan Materials Replacement Well Health Services, Department of Pleasanton--Alameda To replace existing water well with a new well of substantially the same size.	NOE	
2004098181	Lower Otay Reservoir Emergency Discharge Pipeline Modifications and Savage Dam, No. 8-4 Water Resources, Department of, Division of Dams --San Diego Remove about 200 feet of the outlet pipeline, demolish abandoned pumping plant buildings, mass grade the surrounding area, and construct a new outlet structure with riprap protection. 2003092095	Robbins Point Community Plan Amendment and Rezone Sacramento County Elk Grove--Sacramento A Community Plan Amendment from RD-5 (Residential, five dwelling units per acre) to GC (General Commercial), and a Rezone from UR (Urban Reserve) to GC for a 8.48+/- acre parcel.	EIR	10/28/2004
2001122102	Mustang Airport Use Permit Sacramento County Elk Grove--Sacramento The project requests a Use Permit to allow a "privately owned" public airport in the AG-80 and AG-80(F) zones. The project includes the following phases: Phase I to widen the existing 40-foot wide runway to 60 feet to accommodate aircraft with a wingspan of 49 feet or less (Type A and B aircraft speeds less than 121 knots, the slowest approach aircraft speed categories, with maximum gross weight of 12,500 lbs.). Phase I will include 60 rental hangars and 25 aircraft tie downs. Phase I estimates 4,800 annual take-off/landings (average 13 per day). The runway will be extended four hundred (400) feet to the west to ensure that existing trees will not become a navigation obstruction and to provide a safety zone for landing aircraft. The project also entails displacing the landing point at the east end of the runway approximately eight hundred (800) feet to the west to minimize noise impacts. Phase I will use an existing building for: 1) aircraft maintenance; 2) flight instruction; 3) aircraft sales; and 4) pilot supplies. A self service fuel island will be constructed. Phase I will also include the installation of a glide path outdoor guidance system for all aircraft approaching the runway. The guidance system for visual approaches will include either a Visual approach Slope Indicator or Precision Approach Path Indicator. Either guidance system is comprised of a small box containing lights that rests on the ground and is approximately 1 foot wide by 1 foot deep by 1 foot high. A pilot controlled lighting system will enable the pilot to use a designated frequency to activate the runway lights and guidance system for a few minutes during landing. Phase I includes operation of the airport 24 hours a day. Phase II involves the addition of 49 rental hangars to be located west of the Phase I hangars. Phase II would commence upon the completion of Phase I construction and 90% occupancy of the Phase I hangar improvements. With the completion of Phase II, there may be an average to 20 takeoffs or landings per day, for a yearly average of 7,200. Only the same type of category A&B aircraft allowed under Phase I would be allowed under Phase II.	NOP	10/13/2004
2004072110	Hitachi San Jose, City of San Jose--Santa Clara 1) Change the site's General Plan Land Use/Transportation Diagram designation from Industrial Park to Mixed Use with No Underlying Land Use Designation, and update the General Plan's Mixed Use Inventory via a text amendment; 2) Rezone the site from Industrial Park to Planned Development; 3) Establish a development agreement between Hitachi and the City of San Jose to provide objectives and guidelines for the development of the site;	NOP	10/13/2004

	4) Designate one or more new Arterial and/or Major Collector roadways on the General Plan Transportation Diagram; and 5) Modify the Edenvale Area Development Policy to specifically include and provide for the development of the site.		
2004091063	Lang Ranch Community Park Project Conejo Recreation and Park District Thousand Oaks--Ventura The proposed Lang Ranch Community Park project would develop a 44-acre community park within the Lang Ranch Specific Plan area and preserve 17 acres of habitat along Lang Creek. The proposed project would include a community center, lighted sports fields, picnic structures/areas, play equipment, a roller hockey rink, basketball courts, tennis courts, volleyball courts, trails, restrooms and several parking lots.	NOP	10/13/2004
2004091061	Conditional Use Permit #04-0007/Foodpro International, Inc. Imperial County Planning Department --Imperial It is the intent of the applicant to relocate their existing whole leaf lettuce processing facility to this new location. According to the application, the processing facility will be within a metal building approximately 84,000 square feet in size and include parking and a shipping truck dock. The plant will initially hire approximately 200 employees and the facility will operate from 6:00 a.m. to 3:00 p.m., for approximately four to five months, from November through March, each year. Two commercial driveways into the facility will be constructed with a paved parking lot with a minimum of 200 parking spaces and a minimum of four handicapped spaces will be constructed on-site. For storm water runoff and operational water usage, a collection retention area will be constructed on-site. Water for the employees will be treated to potable water standards that meet all federal, state and local health requirements.	Neg	10/13/2004
2004091062	Disposition and Development Agreement for the Piemonte at Ontario Center Project Ontario, City of Ontario--San Bernardino This project involves the approval of a Development Agreement between the City of Ontario Redevelopment Agency and Pannatoni Development for a 110-acre mixed use development to include approximately 800 residential (condo) units, approximately 386 hotel rooms, 4.3 million square feet of commercial including restaurants, shopping, banks, health club and markets as well as 477,000 square feet of office space. The proposed development will also consider development of a Community events center. The project site was previously envisioned for commercial uses in the Ontario Center Specific Plan and associated EIR #88-2. This analysis conceptually compares the proposed mixed uses to the Ontario Center Specific Plan uses.	Neg	10/13/2004
2004091064	ENV-2004-4798-MND Los Angeles City Planning Department Los Angeles, City of--Los Angeles Tentative Tract Map No. 61514 to permit the construction of a 92-unit, single-family detached airspace subdivision for condominium purposes of nine existing lots, comprising 5.57 net acres, or 242,654.2 square feet, with no existing structures on the site. The site is currently zoned RA-1 with a proposed zone change to RD2-1, and is located in the Community Commercial land use category designation.	Neg	10/13/2004

	Included as a part of the project is an over-in-height fence of six-feet high in the front yard setback, reduction of passage between buildings from ten-feet to varying between five-feet and eight-feet, and, locating guest parking spaces within the required 15-foot front yard setback. The proposal includes a total of 184 resident parking spaces, plus 47 guest parking spaces. Haul route approval is also required.		
2004091065	Santa Margarita Collision Rancho Santa Margarita, City Rancho Santa Margarita--Orange The proposed project involves the operation of an auto body shop in an existing commercial / industrial building. The existing structure is 23,617 SF, consisting of 4,883 SF of office space, 7,711 SF of auto repair and paint booth area, and 11,023 SF of warehouse space.	Neg	10/13/2004
2004092062	Knox Final Map Subdivision Humboldt County Planning Department --Humboldt A Coastal Development Permit and Final Map Subdivision of a 5.09-acre parcel into 27 residential lots, with a minimum 5,000 square foot net parcel size, and mitigation area for the establishment/preservation of a beach pine forest. The project requires an exception to lot frontage requirements. The subdivision will be served by community water and sewer, is accessed via Halfway Avenue and the new interior access road from Halfway Avenue. The subdivision proposes to utilize the stormwater detention ponds within the Airport Business Park. The project requires exemption from Section 322.5 of the County Subdivision Regulations re: solar access. The project includes demolition of existing dwelling units and accessory structures and septic tanks or wells as required by the County Division of Environmental Health, and a Special Permit for major vegetation removal for road and homesite development.	Neg	10/13/2004
2004092063	Hutt Final Map Subdivision Humboldt County Planning Department --Humboldt Approval of a Coastal Development Permit and Final Map Subdivision of 1.8 acres into eight (8) residential lots. The subdivision will be served by community water and sewer, and will utilize the existing storm water detention pond located within the Airport Business Park. The project requires an exception to road-width standards and lot frontage requirements to allow flag lot configuration. The subdivision will be accessed from Halfway Avenue via the proposed interior access road. The project involves removal of existing dwelling units, accessory structures and barn, as well as the destruction of sewage disposal systems and water wells as required by the Division of Environmental Health. The project involves major vegetation removal; pines, alders, oaks and firs will be removed for on-site and off-site improvements excepting trees along the northern and western property lines which will serve as a landscape buffer between the subdivision and the Business Park.	Neg	10/13/2004
2004092064	Highlands Village Mixed-Use Project (EIAQ-3785) Placer County Planning Department --Placer Planned Development consisting of a mix of market-rate single family homes, 78 affordable senior apartments, and 4,800 sq. ft. of commercial development on 13 +/- acres.	Neg	10/13/2004

2004092066	Lathrop Skate Park Lathrop, City of Lathrop--San Joaquin Develop a 12,500 SF skate park to include a 7,500 SF cement pad with bolted in above ground features to include ½ and ¼ pipes, rails, ramps, and fun boxes professionally built, installed and spaced according to accepted safety standards. Storm water retention areas on the north and east sides of the property consisting of 1,900 SF or retention area. Skate funds requested for lighting of the skate park.	Neg	10/13/2004
2004041098	West Kern Water District Turn-In No. 1 West Kern Water Agency --Kern The proposed construction project objectives are the introduction of water into the California Aqueduct, and through water exchange between Kern County Water Agency and West Kern Water District to meet the water demand for the La Paloma Generating Company, LLC, in the event of a short water year. Water received from the State Water Project would have to fall below 6,500 acre feet before the proposed turn-in structure would be used. Water would then be pumped from the WKWD groundwater supply into the California Aqueduct to meet the La Paloma needs. The proposed construction project is the installation of an 18" diameter coated steel pipe turn-in structure to the California Aqueduct. The structure will be complete with inline valve, flow meter, concrete deck with pipe supports, concrete steps with handrails, block retaining wall, and security fencing.	NOD	
2004042140	Housing Element Update of General Plan Patterson, City of Patterson--Stanislaus The Housing Element is a planning tool for use by citizens and public officials in understanding and meeting the housing needs in Patterson. It addresses existing and future housing needs of all types for persons of all economic groups in the City and is one of the seven required elements in the General Plan. State law requires the Housing Element to be updated every five years. The 2003-2008 Patterson Housing Element was adopted on September 7, 2004. The Housing Element is a policy level document.	NOD

2004098219	<p>Remove Invasive Plants at Gold Bluffs Beach Parks and Recreation, Department of --Humboldt</p> <p>This rpoject removes two invasive plants, Eurpoean beach grass and Pampas grass, from the dunes at Gold Bluffs Beach in Prairie Creek Redwoods State Park, in order to protect rare plants and restore native dune conditions. Project area is located between Ossagon Creek and the National Park Service border north of Carruther's Cove. Beach grass will be dug out with shovels. Pampas grass will be removed from dunes and bluffs using weed wrenches, shovels and other hand tools, as well as power tools. The treatment area in this location will not exceed 15 acres of dunes and coastal bluffs. Pulled beachgrass will be piled on a tarp and placed out to dry until burning is allowed in the appropriate season. The project will occur when snowy plovers are not present, and will be supervised by a park biological technician to ensure that rare plants are not disturbed. A minimum 100-foot buffer zone will be established around culturally sensitive areas to ensure that they are completely outside of the project boundaries. The Yurok Tribal Council has been consulted on this project.</p>	NOE
